SUMMARY

AI engineer with **10+ years** of fullstack and backend experience — now shipping **LLM-powered features** (RAG, agents, evals) in Python on top of a long career in enterprise **Java, Spring Boot, Angular, and cloud** platforms at T-Mobile scale. Comfortable owning features end-to-end: API design, async flows, observability, and production reliability.

EXPERIENCE

Cloud Consultant · Concentrix

Aug 2023 — Present · Hyderabad

Client: **T-Mobile US** — Supply Chain Management (SCM)

- Own SCM platform serving **5,000+ T-Mobile retail stores** — managing end-to-end digital inventory, reverse logistics, and Device Logistics Management (DLM) processing **500K+ daily transactions**.
- Developed **TIMO Console** and **TIMO iOS App** for inventory movement and logistics tracking, reducing manual reconciliation effort by **~60%** across the supply chain network.
- Architected cloud-native microservices with **Spring Boot** and RESTful APIs; integrated **Kafka** and **RabbitMQ** async flows handling **2M+ daily events** with zero message loss.
- Built CI/CD pipelines on **GitHub Actions** and **Azure DevOps**; containerized **12+ services** with Docker + Kubernetes, cutting deployment time from 4 hours to **25 minutes**.

STACK Java 17 · Spring Boot · Microservices · Angular 16 · AWS · Kubernetes · Kafka · RabbitMQ

Senior Software Engineer · Concentrix Catalyst

Jul 2019 — Aug 2023 · Hyderabad

Clients: **T-Mobile US** · **Union Pacific Railroad**

- Delivered **Crew Allocation & Time Management** for UPRR — designed Rest Day logic integrated end-to-end into the CREW module, serving **30,000+ railroad crew members**.
- Sole owner of 3 SCM modules (**DRI / DRO / DLM**) at T-Mobile — resolved 40+ production incidents and improved module uptime from **99.2% to 99.8%**.
- Integrated **Kafka** for async communication, enabling high-volume data loads of **100K+ records/batch** with **3x throughput improvement**.
- Tuned **Cassandra** query patterns and data models, reducing p95 latency from **850ms to 120ms** across high-traffic endpoints serving **2M+ daily requests**.
- Led root-cause investigations that reduced mean time to resolution (**MTTR**) by **35%** on production issues.

STACK Spring Boot · Apigee · Cassandra · Kubernetes · Splunk · Angular 8 · Kafka

Software Engineer · Tata Consultancy Services

Feb 2016 — Jul 2019 · Mumbai

Client: **CCIL** — Clearing Corporation of India Ltd.

- Worked on CCIL — India's central counterparty providing guaranteed clearing & settlement for Money, G-Sec, FX, and Derivative markets processing **₹15L+ crore daily**.
- Shipped **ERCS** (Electronic Receipt & Confirmation System) for collateral notices — live in production at *enotice.ccilindia.com*, serving **200+ financial institutions**.
- Built **CRM** (Credit Risk Monitoring) from scratch — ingesting Excel data, calculating risk, and auto-categorizing members, replacing a 3-day manual process with a **15-minute automated workflow**.

STACK Spring · REST · Oracle · Tomcat · AngularJS · JSP · JPA · Git

| SELECTED PROJECTS

AI Test Agent (TOP) · Intelligent QA Orchestration

AI-driven testing agent. Analyzes codebase controllers, DTO schemas, and annotations to automatically generate business flows (onboarding), database relational test datasets, and scenarios from Jira tickets.
Python · LangChain · RAG · FastAPI · Structured Extraction · SQL DDL

Git Release Analyzer · AI Release Auditing & Summaries

Compares release and production branches via Git APIs. Traces all code changes, commits, MRs, and file authors, generating separate high-level Business Summaries and technical dependency maps.
Python · Git API · OpenAI · FastAPI · React · Risk Auditing

DocuMind · RAG-powered doc assistant

Retrieval-augmented Q&A system over technical docs. Ingests PDFs/Markdown, chunks with recursive splitting, embeds via OpenAI, retrieves via ChromaDB with hybrid search + cross-encoder reranking.
Python · LangChain · OpenAI · ChromaDB · FastAPI · RAG

AgentFlow · Multi-agent workflow

LangGraph-based stateful orchestration. Features planner, retriever, executor, and critic agents collaborating with tool calling, function routing, and self-correction loops.
Python · LangGraph · LangChain · OpenAI · Function Calling · AI Agents

| TECHNICAL SKILLS

AI Engineering	Python · LangChain · LangGraph · OpenAI / GPT-4 · Anthropic Claude · Hugging Face · Ollama · FastAPI · RAG Pipelines · Vector DBs (ChromaDB, Pinecone) · Embeddings · AI Agents
Backend	Java 8 – 17 · Spring Boot · Spring Security · Microservices · Hibernate / JPA · REST APIs · OAuth 2.0 / JWT
Frontend	Angular (8 – 16) · TypeScript · JavaScript · RxJS · Tailwind CSS · Next.js
Cloud & DevOps	AWS · Azure · Docker · Kubernetes · GitHub Actions
Data & Messaging	Oracle / PL-SQL · PostgreSQL · MongoDB · Cassandra · Kafka · RabbitMQ · Splunk

| EDUCATION

B.Tech, Electronics & Comm.
Jawaharlal Nehru Technological University, India

| CERTIFICATIONS

Stanford & DeepLearning.AI: ML / Advanced Learning Algorithms · Spring Framework · Angular Template Design · Learning Java EE.
